

A way of living

Dynamic economy

The Drôme department has a dynamic economy which has been capable of creating new activities and attracting many national and international companies around competitive poles.

A good place to study

Valence is the largest decentralised area for university studies in France with 9,500 students.

An incomparable quality of life

The Drôme has a naturally mild and sunny climate and possesses a rich and varied heritage; propitious conditions for tourism, culture and the environment.
