

A business park certified ISO 14001

The recognition of a sustainable environmental approach

Certified ISO 14 001 since 2004, Rovaltain has committed its development to environmental quality standards. This certification implies continuous improvement of the environmental management and innovation systems which makes Rovaltain an exemplary business park (management of air / waste / energy performance of buildings, urban planning regulations focussing on quality, environmental management booklet, innovative rain water treatment...).

The environmental management system at Rovaltain

The Environmental Quality Policy at Rovaltain defines its action to develop and equip the site. It implicates the obligation for builder investors to design, construct and manage buildings with respect to the list of 15 high quality environmental objectives.
